

# LocPoint® Security at sea - SSAS, Ship Security Alert System

As a professional fleet tracking/management application, LocPoint Marine handles alarms from SSAS. The Unix based system offers extremely flexible, secure and reliable administration and routing of the alarm signals.

Security at this level is a serious matter. To meet the rising demands and to ensure our customers the utmost safety and reliability, LocPoint Marine - in connection with SSAS - can be configured only with Inmarsat-C units from the world's leader in satellite communication - Thrane & Thrane A/S.

LocPoint Marine is the only web based fleet tracking system certified by Thrane & Thrane in connection with TT-3000SSAS Capsat® Ship Security Alert System.

The TT-3000SSAS Capsat® Ship Security Alert System is based upon the well-known and reliable Inmarsat-C service, known for its unique role in maritime safety and for more than a decade an integral part of the IMO's GMDSS (Global Maritime Distress and Safety

## SOLAS Resolution XI-2/6

As piracy and terrorist attacks have increased over the years IMO has defined a set of mandatory requirements in the SOLAS Resolution XI-2/6 to improve security for ships.

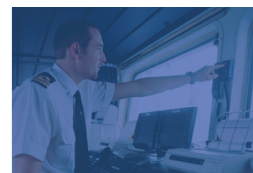

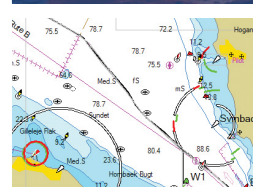

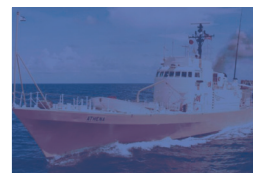

The new SOLAS resolution 6 states that the Ship Security Alert System shall provide ships with two alarm buttons, which can be activated in case of a piracy or terrorist attack. The alarm is a covert signal, which will have no sound and no flashing lights so that it is in no way obvious to any intruders on board the ship.

The SOLAS Resolution XI-2/6 requires vessels of +500 GT (Gross Tonnes) constructed before 01 July 2004 to install a Ship Security Alert System (SSAS) no later than the first radio survey after 01 July 2004. Other Cargo ships of +500 GT and mobile offshore drilling units constructed before 01 July 2004 must be fitted no later than the first radio survey after 01 July 2006.

System). It has been developed by Thrane & Thrane to supply customers with a system that fulfils the new SOLAS requirements from IMO (International Maritime Organisation).

Thrane & Thrane offers full support by the global distributor and partner network, with more than 10 years experience in delivery, installation and support of Inmarsat C-systems.
